

Description

3D model of the east sector of the medina de Calatrava la Vieja, in which have been discovered the remains of several houses from the Islamic and Christian periods, with continued occupation between the 10th and 15th centuries, and the defensive system of the alcázar, composed of several lines of outer walls of different chronology, and a bent-entrance gateway built in times of the Military Order of Calatrava (mid-13th century). The 3D model shows the appearance of the excavated area at the end of 2017 campaign. GDH Excavation Area 3.
