

## Description

The arched niche (arcosolium) for 2 burials is located in a hypogeum (a subsurface burial ground of greater size) in the upper level of the Catacombs of San Gennaro (Naples). The niche is currently dated in the 3rd century AD and belongs to the oldest part of that level. The Catacombs itself were used for burials from the 2nd century AD to the middle ages.

The paintings are in a poor conservation status: A red-yellow orange frame system divides the surface in geometrical motives, in which different objects were placed. Relics of flowers adorn the background.

Processed from 152 photos and 2 laser scans. The result of a joint project of GDH, the Zamani Project, Università degli Studi di Napoli &#8220;L&#8217;Orientale&#8221;, and the Administration of the Catacombe di Napoli. Processed in Reality Capture. The descriptions were provided by Seniorprofessor Dr. Dieter Korol, Westfälische Wilhelms-Universität Münster. Project # Fresco 19b.

## Specifications

**Country:** Italy

**Region:** Capodimonte-Naples

**Site:** Catacombs of San Gennaro

**Age:** Medieval

**Internal ID:** Area\_19\_B

**Digitization date:** 19-30/09/2019

**Photos / scans number:** 152 photos 2scans
